### ABOUT THE MASTER PLAN

The mission of this plan is to create a comprehensive guide to make improvements for the church, school, buildings and grounds for the betterment of the church and school community. The plan will outline the best path to achieve the objectives and goals while being mindful of cost, quality and future use. The planning process will begin in February and it is important that we hear your thoughts and ideas to make this successful. There will be opportunities for you to participate and provide input at various stages throughout the process.
